Allowable Subject Matter

1.   Claims 1, 2, 6-8 and 16-25 are allowed.

2.   The following is an examiner's statement of reasons for allowance: In addition to
applicant's remarks filed 07/17/2006, the primary reasons for allowance are the
inclusion of the following limitations in a method (and corresponding computer and
system) directed towards a backup processing for backing up data to be used by a
data-processing computer:

"selecting resources in a usable state from a plurality of resources necessary fro
backing up data stored in a disk storage system, the data to be used by the data
processing computer, the selected resources including a first storage unit to store at
least some of the data in the disk storage system as backup-data and as second
storage unit different from the first storage unit to store at least some of the data in the
disk storage system as backup-data;

executing backup processing by using the first path and a backup instruction
command set having a plurality of backup commands, each backup command backing
up a different portion of the data from the disk storage system to the first storage unit as
backup data, every portion of the data having a corresponding backup command, the
backup processing including executing one or more of the backup commands;

detecting if a problem occurs in the first bath based on a result of execution of
one of the backup commands in the backup instruction command set;

changing from the first path to the second path if a problem is detected;

and continuing execution of the backup processing by using the second path and
executing backup commands in the backup instruction command sets that have not yet
been executed." (from claim one, similar limitations in claims 17 and 22).

This subject matter is not found in the prior art, nor is it obvious in view of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
